

Pre-Pay \$0.20/gal Discount Program Details

Sibran – Deer Valley self-serve is here because of you: the *pilots of DVT*. We win when we deliver top quality of fuel at the lowest price to you. We are always looking for ways to save you money.

How does it work?

- Processing standard credit cards costs approx. \$0.20/gal. By doing pre-pay Gift Card, credit card processing fees are eliminated. Sibran passes savings on to you.
- Mail a check for \$500 minimum to Sibran.
- Sibran will issue a Gift Card with your credit loaded.
- Using the Gift Card automatically triggers a \$0.20/gal discount off current posted price. No PIN or password required.
- Your current balance prints out on your receipt every time you buy avgas.
- Your credit on account has no expiration.
- Remember – this card is like cash at the Sibran DVT self-serve. Sibran not responsible for fraudulent use of card.

Adding credit to your card:

- Future pre-payments (\$500 minimum) mailed to Sibran will result in adding the additional credit to your card.
- Pre-payment may not be made via credit card – must be check (would defeat the purpose of eliminating the credit card processing fees).

Can I get my money back?

- Balance of credit will be refunded and card deactivated upon written request.
- If card is lost, Sibran will issue a new card and transfer credit to new card and deactivate old card.
- Mail checks for additional credit to:

Sibran Properties LLC
Attn: Dan Olsen
6442 Sanctuary Drive
Windsor, CO 80550
